Deadlines & Timelines

A College policy is that all work must be submitted by the due date. Each teacher will distribute a full list of due dates for his/her subject and also the criteria for assessment.

Examinations and Outcome Tests

VCE examinations occur at the middle and the end of the year and Outcome tests occur during the year. Students must attend all exams and designated outcome tests as there is no provision to re-sit VCAA test tasks.

Students who are absent for an outcome must obtain a **medical certificate** in order to re-sit the outcome. Failure to do so will result in a mark of zero being recorded for the assessment task/SAC, the issuing of a Teaching and Learning Detention and a parental interview with the VCE Progress Panel. Failure to re-sit the task within 7 days when directed to do so on Wednesday afternoon or Saturday morning and meet the requirements of the panel will result in an "N" for the outcome (which would automatically mean an "N" for the unit).

Attendance

Students are expected to attend all classes. Failure to do so may result in an 'N' for the Unit. In the event of absence from class parents should follow the procedures outlined in the College Attendance Policy for Notification of Lateness or Absence from School. It is a requirement that parents / guardians notify the College between 8-9.30am if their son is to be absent from Homeroom on that day and **provide a medical certificate** or statutory declaration regarding the legitimacy of the absence. Parade College retains the right (under the VCAA guidelines) to judge the legitimacy of any non-medical absences.

Achievement Of Outcomes Satisfactory Completion

For satisfactory completion of a unit, a student must demonstrate achievement of each of the outcomes for the unit that are specified in the study Design This decision will be based on the teacher's judgment of the student's performance on assessment tasks designated for the unit. The key knowledge and skills and the Advice for Teachers included in the study design will assist teachers in making this judgment. It is up to the school to develop courses that will provide opportunities for students to demonstrate achievement of the outcomes and to satisfactorily complete the units of their VCE studies. The judgment of satisfactory completion is a school responsibility.

Achievement of an outcome means:

• the work meets the required standard as described in the outcomes;
• the work was submitted on time;
• the work is clearly the student's own;
• there has been no substantive breach of rules.

If all outcomes are achieved, the student receives S (Satisfactory) for the unit.

A student may not be granted satisfactory completion if:

• the work is not of the required standard as described in the outcomes;
• the student has failed to meet a school deadline for the assessment task, including where an extension of time has been granted for any reason, including Special Provision;
• the work cannot be authenticated; or
• there has been a substantive breach of rules including school attendance rules.

If any one of the outcomes is not achieved, the student receives N (Not Satisfactory) for the entire unit.

Where a student has completed work but there has been a substantive breach of class attendance (i.e. below 90% attendance at scheduled classes), the student may be awarded N.
