

Parade Instructional Model

Explicit Instruction

Teachers fully explain the concepts and skills that students are required to learn.

Modelling

Effective teachers break down what students need to learn into smaller learning outcomes and model each step so that students can see what is expected of them.

Guided Practice

Teachers provide multiple opportunities for students to practise, and support is gradually removed as students develop understanding and can work more independently.

Independent Practice

Once students have developed understanding, teachers ask students to complete tasks themselves while the teacher monitors and provides feedback.
